About Marienlyst Golf club

Marienlyst golf club was founded in 2004 and is the result of a project under the Urban project. The course is located in Marinlystparken in Aarhus West. It has been laid out with the help of Aarhus municipality's nature management as a 6-hole par-3 natural golf course with tees, fairways and greens. The course is intended as an input to the community in the residential area, with the opportunity to, in a relaxed way, cultivate a common interest, where at the same time you take each other and nature into consideration. The division of work around the course is that Aarhus municipality is responsible for mowing the grass on the fairways and the club is responsible for mowing the greens, as well as arranging events.

Here you see the par3 course and the 6 holes distributed in the park.

The course's holes vary in length from 65-90 meters. The course is really good for practicing shots for the greens. We hope that those who use the pitch will help to preserve the club and sign up. It costs DKK 300 for a season. Guests can play for DKK 35 per day. If the club closes, there will be no one to mow the greens, it will all grow over, and no more golf can be played. It will be a shame! New members and guests can, to a limited extent, rent equipment for a small amount.

Rules on the Golf course

1. Do not use drivers. Iron only. This is due to security.
2. Only hit from the mat on the tee, otherwise the course will be destroyed.
3. Put turf back on the fairway after hitting, so we look after the course.
4. Penalty strokes are given when the ball cannot be played. The ball is put back in the direction it disappeared.
5. Be aware of park guests who are also walking in the park. Show consideration and politely ask for space.
6. Clean up after yourself. Take rubbish, deposits, shutters and the like with you. Leave the track as you would like to find it.
7. Meet each other with a smile and a chat.
8. We have room for everyone
